QA Engineer | Manual & API Testing | FinTech & Gaming Backend Services

PROFESSIONAL SUMMARY

Quality Assurance Engineer with 4.5 years of experience across fintech (open finance) and gaming backend products. Skilled in test case design and bugs investigation to test reports and documentation such as user manuals and QA guidelines. Worked closely with developers, project managers, and stakeholders across Europe, the Middle East, and the United States in remote teams. Currently building test automation skills with Playwright, Python and Pytest.

PROFESSIONAL EXPERIENCE

Brankas
December 2025 – June 2026
Quality Assurance Engineer (**Contract**) | B2B Open Finance and Banking Solutions

- Primary contributor for a B2B open finance portal in a 10-person project team, covering the full testing lifecycle.
- Designed, reviewed and executed 900+ manual test cases using BDD (Given-When-Then) format, covering core banking and approval workflows.
- Used Claude AI to explore edge cases and speed up test case drafting, reviewing all output before use.
- Validated 20+ REST API endpoints via Postman; ran exploratory, end-to-end, regression and sanity testing across Staging and UAT environments.
- Triaged client-reported issues in Jira, verified fixes in Staging and UAT environments, and coordinated test results with developers and project stakeholders.
- Produced user manuals and testing reports to support client visibility and project handover.
- **Project Continuity:** Sustained full QA coverage and on-time delivery as the sole tester for 5 months during the QA Manager's extended absence.

PT. Accelbyte Teknologi Indonesia
November 2021 – April 2025
Quality Assurance Specialist (Full Time) | B2B Gaming Backend and Ecosystem Platform

- Executed test coverage across 20+ client and internal environments within an 8-person QA team, contributing to platform stability for global game studios.
- Validated 30+ REST API endpoints using Swagger to verify core backend service functionality.
- Designed and executed test suites for exploratory, sanity, smoke, regression, UAT, and end-to-end testing across web and client applications.
- Supported release quality by debugging failed cases and verifying fixes in coordination with the release teams, SDETs, and the QA manager for global game studio launches.
- Authored and maintained 15+ QA documents, test reports, and internal guidelines streamlining team processes and supported knowledge sharing across QA teams.
- **Client Collaboration**: Acted as the sole QA contact for clients on several occasions, coordinating directly on behalf of the QA team.

Additional Responsibility: Acting QA Lead - Internal Playtesting and War Room

June 2023 – April 2025

- Coordinated an 8-person QA team during internal playtesting and client launch periods, in collaboration with the QA Manager.
- Evaluated testing scope for unreleased games and supported release-readiness decisions with the QA Manager.
- Supported team members with game build troubleshooting and coordinated build readiness with Project Managers and clients.
- **Mentorship:** Mentored QA team members on internal playtesting, client launch processes, and game test case creation.
- **Onboarding:** Onboarded 2 team members (1 new hire, 1 internal transfer) on the game testing process as part of team OKRs.
- **Reporting:** Replaced legacy manager reporting with structured internal playtesting and launch reports, improving stakeholder readability and setting a repeatable reporting standard for the team

PT. Vodjo Teknologi Indonesia

May 2021 – November 2021

Software Tester & Technical Writer (**Contract**) | Software Ecosystem Company

- Contributed to around 14 client projects across the full QA lifecycle, developing and executing test cases for websites and mobile apps based on product requirements.
- Reported and tracked bugs, working with developers to verify fixes and stabilise builds.
- Conducted software demos and prepared design-approval documents and user manuals for clients.
- **Project Delivery:** Owned end-to-end testing for 5 project deliveries while operating in lean teams of 2-3 people.

TECHNICAL SKILLS

Automation and AI: Playwright, Python, Pytest**,** Claude AI (test case drafting, edge case analysis)

Testing Types: Manual Testing, Exploratory Testing, Re-testing, Regression Testing, Smoke Testing, Sanity Testing, End-to-End Testing, User Acceptance Testing (UAT), API Testing

Tools and Platforms: Postman, Swagger, JIRA, Confluence, Github Actions, Google Sheets, Google Docs, Chrome DevTools, Fiddler, QMetry

Methodologies: Behavior-Driven Development (BDD), Agile, Scrum, SDLC, STLC

Documentation: Test Plans, Test Cases, Test Reports, QA Guidelines, User Manuals

Domain Knowledge: Fintech (Open Finance), Gaming Backend Services

SOFT SKILLS

Remote Collaboration, Cross-team Collaboration, Client Communication, Mentorship, Teamwork, Knowledge Sharing, Adaptability, Problem-Solving

EDUCATION

Bachelor of Informatics Engineering

International Women University

LANGUAGES

English (Professional Working Proficiency), Bahasa Indonesia (Native Proficiency)
